Alan

Thank you so much. I should be able to submit the form at the end of September.

Thank you again,  
Koto

Koto,

Erika and I feel it is more important to have accurate information so, yes, please complete the form when your basin coordinator returns. Can you give us a target when you think we'll see the information?

Alan

Erika and Alan

One of the basin coordinators for the NWQI watersheds is on leave until mid September, so we will not be able to populate the form with accurate information. I understand it is an inconvenience, but would it be ok if we submit the complete form at the end of September instead of 9/15?

Please let me know. If you would like to discuss, please feel free to give me a call.

Thank you,  
Koto Kishida

Subject: RE: NWQI Reporting Form

Hi Koto,

Attached is the R10 NWQI reporting spreadsheet for you to complete and email to Erika Larsen (her email address is in the cc) with cc to Alan Henning (the Oregon NPS Coordinator) on or before September 15.

Also attached is the general methodology for the NWQI 319 GRTS funding pull for FY14 and the project funds report for those states that had a 319 project in NWQI watersheds in FY14. Data pulled from GRTS reflect projects in NWQI watersheds awarded in fiscal year 2014 only. The GRTS project report is split into two tabs, planning projects and implementation projects. In the case where a state has more than one project in an NWQI watershed, those estimates were summed. These estimates have been entered into the state reporting sheets (question 5 and 6 on HUC tab). States may have other methods to estimate 319 and/or match, if so, a short description in the comment boxes would be useful. To help answer question 1, "Is there a watershed based plan, TMDL, TMDL implementation plan, or other plan in place?", EPA prepopulated the "plans" with the information received from NRCS earlier this year. Please note that this is not necessarily a comprehensive list of watersheds plans and other plans could exist in the NWQI watersheds.

I believe that Alan forwarded this information to someone in DEQ, possibly Gene or Don.

Regards,

Jayne Carlin, Regional NPS Coordinator

Subject: NWQI Reporting

Hi Jayne

I hope this finds you well.

I am checking in about NWQI reporting.

I talked to Stu Lehman recently about Oregon's NWQI projects, and he told me to ask you about the status of Oregon's NWQI Reporting form. If possible, I would like to obtain the form soon in order to have some time to coordinate with the regional staff to provide information on the NWQI projects.

Thank you so much,

Koto
